Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the instant claims are drawn to the production of an organosilane by hydrogenation of an alkylhalosilane or an alkoxyalkylsilane. The closest prior art of record, i.e., references listed on the attached PTO-1440 and PTO- 892 forms, teach the process being conducted in the presence of polar solvents, such as ether-based solvents; however, prior art methods fail to teach or suggest the use of non-polar solvents such as aromatic hydrocarbons, as claimed herein. A person having ordinary skill in the art would not have found it obvious to substitute polar solvents, which have long been used in such a process, for a non-polar solvent. Accordingly, the instant claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached on 571-272-0871. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
